

GREEN YOU PROJECT

NEWSLETTER 1

KICK OFF MEETING IN NICOSIA 30 JUNE 2023

During this momentous gathering, our project partners engaged in productive discussions on project management, quality, and the review of all workpackages. We also brainstormed an effective dissemination strategy to ensure its widespread impact.

With a shared vision and collaborative spirit, we're excited to embark on this remarkable journey together and make a positive difference in our field.

We have started working on RESULT 1 - MOOC for climate action.

It will consist of 5 modules:

1. Fostering digital and green competences in the context of youth employment
2. Introduction to AR technology
3. Augmented Reality training package for Youth Workers
4. Designing learning scenarios for Climate Action using Mobile Augmented Reality Games
5. Real based scenarios and simulation-based training

RESULT 1 MOOC FOR CLIMATE ACTION

This online environment will comprise the e-learning environment, displaying the module material/ OERs for the youth workers. A variety of online interactive tools will be developed to facilitate the learning process and to promote green transition and climate change issues and information sharing among target groups and stakeholders.
