

GREENYOU MOOC

NOVEMBER 2023

We are excited to announce the launch of the GreenYOU MOOC, a self-paced online course providing gamified learning resources for youth workers. It aims to foster green skills and improve youth employability through interactive modules.

WHAT DOES THIS MOOC CONSIST OF?

The GreenYOU MOOC is a self-paced online course with five interactive modules focused on fostering green and digital competences, introducing AR technology, and designing climate action scenarios. It features gamified tools like storytelling, quizzes, and simulations, promoting flexible learning while adhering to GDPR and WCAG 2.1 standards.

Youth

The MOOC is tailored for both youth and youth workers. This differentiation ensures targeted support for youth workers to guide young learners effectively while empowering youth to develop key green and digital skills.

Youth Workers

- 5 Modules: Covering digital & green competences, AR technology, climate action, and simulation-based training.
- Interactive Tools: An engaging e-learning platform with resources and tools to support learning, promote green transitions, and encourage information sharing.
- Flexible Learning: Start anytime, progress at your own pace.
- Accessible: GDPR and WCAG 2.1 compliant.

WHAT TO EXPECT
